Organization Embracing Practically All Women Members of National Association Will Leave the Women Strong After War; Not Improbable That Women May Be Elected to Executive Committee Soon.

ONE of the greatest organizations of in the world connected with a perts has been improbed and set in matter by the American women who follow the game in a body which for potential power may noted that the game of the courts. The forting the law of the society. The forting the law of New York state, is much more than its mane implies. The influence toward lie implies, is much more than its mane implies. The influence toward lie implies, is much more than its mane implies. The influence toward lie implies, is much more than its mane implies. The influence toward lie implies of the game throughout the length and breastly in all the New York Tennia citals, only failed with the maximum and the features of the easem. The instruction of the Montcolar at the New York Tennia citals, only failed with the more competition of the results of the more competition the grains builds the fund, and the game builds the fund, and the more competition to that the operation of the more competition of the value of the game there is a mount of money. Without the amount of money, without the amount of money, without the amount of money, without the amount of money. Without the amount of money, without the amount of money the perturbation.

It is not required to the courts of the money that the courts of the m

mis, that is destined to become a power in the sation.

The entire club membership of the talled States National Lawn Tennis association, east and west, north and south, is falling into line. There is approximately a total of 600 other preparations are being made for the membership of 160,000 of the membership before, which make it easy to sign and to entablish the identity or the work. These appear at the lour-naments, at the special matches and that rempetitions, and inchestally the entry fees of these all go toward resulting the amount. It has already begun to grave, and the absence is not difficult to determine, 3100 mallipoles, and fifther to determine, 3100 mallipoles, and this laws tennis. It is endugh to be gathered by the women wis leve and follow have tennis; it is endugh to be gathered by the women wis leve and follow have tennis; it is endugh to make approximations the nations realise of the varieties of the same day tournament; is all compress their work that the sear of weapan's advancement is all compress to the same tennis ambulance fund it was the wonderful success of the same day tournaments, the lingstread and attended the continued of the one day tournaments, the lingstread of the same from the transmitted for the lawn tennis and the rapid fire matches which the women in the for the lawn tennis and the results and the rapid fire matches which the women in the for the lawn tennis and the results and the rapid fire matches which the important work the president. Mrs. William H. Pritchard, and the rapid fire matches which the important weighted the lawn tennis for sheet and kind Norfolk, of Paname, found it would be a but eight to and the weighted its and northern the significant of the support of the same of the catterior of the same of the catterior of the same first and the same of the catterior of the same of the catter

# Good Health And Efficiency

In these trying times, when all patriotic people are practicing economy, thrift and conservation of our natural resources, we must not lose sight of the necessity-especially at this time-to KEEP-WELL. If we neglect our physical condition and become ill, not only is our time lost but

We wish to advise you against the neglect of little ailments. Forty per cent of our population is afflicted with some form of Rectal trouble, and many of these neglect their trouble because they believe that only an operation will bring relief or a cure. If every man or woman would come to us when they notice these symptoms, we could save them time

We guarantee to cure any uncomplicated case of Piles in a few days, WITHOUT PAIN, OPERATION OR DETENTION from your business. Our charges are reasonable, and we assume all risk, and remember, we use no strong injections that cause ulceration or other discomfort. and our treatment leaves the rectum as smooth as it ever was. We have cured one case that has had five operations, several have had two or three, and many have had one surgical operation. \*Our treatment not only cures but is prophylactic and a relapse has never been reported in any single instance when our instructions have been carried our

FISSURES AND FISTULA These two painful Rectal conditions yield rapidly to our method of treatment, and with a very few exceptions in the treatment of Futula, no operation is necessary, and the treatment is painless. HERNIA.

Any case of Inguinal (rupture follows canal) Hernia that can be retained with any kind of a truss is amenable to our treatment, which is an infiltration method similar to our pile cure. SKIN DISEASES.

Eczema in all its forms, proriasis, ring worm, acne and skin cancer or epithelioma are included in our specialty, and some remarkable cures have been effected by our methods of treatment.

SO-CALLED "SOCIAL DISEASES."

We do not treat in their acute stages. In the treatment of their complications our ELEC-TRO-MEDICAL system is in our opinion the most successful in existence, and this statement is corroborated by thousands of cured patients

WE ALSO TREAT ALL KIDNEY AND BLADDER TROUBLES and have had twenty years' experience in treating these as well as all the above mentioned diseases. Our offices are the largest and best equipped in the Southwest.

SATISFACTORY RESULTS A MATTER OF DIAGNOSIS.

In the successful treatment of any malady one of the most important essentials is a correct diagnosis. This is particularly true in our specialty, and in the examination of our patients we employ all the latest and best instruments and appliances known and all the newest laboratory tests and analyses of proven value.

As a result of this care and thoroughness in detail, we have cured some cases in a day or so that had been treated for months or years by guess work, therefore if you want a careful, thorough examination—one that will reveal your true condition (without a knowledge of which you are groping in the dark and without a thorough understanding of which no physician should attempt to treat you) -call at our office at your early convenience or phone for appointment.

Our booklet explains our method of treating all forms of rectal diseases and will be sent to any address in a plain scaled envelope free of charge and without obligation

CONSULTATION FREE.
